

Get independent assurance for your compliance, sustainability and ESG initiatives

Speeki is an independent assurance company helping organisations worldwide turn their non-financial initiatives into a competitive advantage.

Why prioritise assurance?

- 🕒 **Trust needs rebuilding** – greenwashing and false claims have reduced confidence in non-financial statements
- 🕒 **Standing out matters** – assurance demonstrates credibility and gives your company a competitive edge
- 🕒 **Stakeholders demand proof** – younger generations, investors and clients want evidence of real impact, not just claims

Speeki offers the independent assurance your organisation needs

We provide validation of non-financial performance across six focus areas.

ISO management system certification to demonstrate alignment with recognised ESG standards

Circular economy claims assurance to build credibility for circular economy metrics and statements

Sustainability report assurance to build confidence in the accuracy and reliability of disclosures

Supply chain verification and assurance to assess actual supplier practices and performance

Product assurance to demonstrate that products meet defined regulatory or standard requirements

Pre-acquisition ESG audits and verification to identify and verify risks, liabilities and disclosures

Speeki's AI-driven platform supercharges assurance

Engage® is an AI-powered assurance platform that enables audit-ready ESG, sustainability and compliance programmes.

- ✓ One platform for internal audits and external assurance
- ✓ 15+ embedded ISO standards, plus custom guidelines
- ✓ Secure evidence and file management within the platform
- ✓ Audit findings, non-conformities and follow-ups in one place
- ✓ Nicole® AI to streamline audit and assurance workflows

Let's discuss the right assurance approach for your organisation.
